to learn more about PPTI and hear more stories of hope. Our commitment is to help our patients achieve their best possible quality of life.

I was a firefighter for 30 years in Cincinnati, and because of the tough work my back deteriorated in the lumbar area. If I stood for more than 5 or 6 seconds, my legs would start shaking. At PPTI I had injections in my back by Dr. Danko, and at the end of my appointment I was able to squat down. I had not been able to do that for a couple of years. I was on pain pills. I only have one kidney and I'm limited as to the kind of medications I can take. I'm slowly reducing pain pills thanks to this treatment.

Since starting with PPTI, I've been back several times to have both sides of my back treated. My wife and I were able to live our lives the way we wanted. We traveled to every state in the United States. Now that my wife has passed, I'm still able to do the things I want to do. I get the shots when I need them. I have freedom to go where I want, when I want, and how I want.
